

Maths Challenge Cards

1) Jack has eighteen leeks in his vegetable patch. He gives 12 to his mum and 3 to his friend. How many does he have left?

2) Five ducks have four ducklings each. How many ducklings are there altogether?

3) There were 25 rabbits in Jack's garden. 13 ran into a burrow and Molly chased the others away. How many did she chase?

4) There are 12 piglets, 15 lambs and 27 calves on the farm. James takes 17 of these animals to the market. How many has he got left?

5) James has 20 bags of feed in the back of Pickup. He uses 11 bags and gives 6 to Jack. How many does he have left?

6) Jack has 10 eyelets in his boot. How many eyelets does he have altogether in a pair of boots?
